SCIENTIFIC PROGRAMME

SPECIAL GUEST: PETER VALENTIN TOMAZIC – Medical University of Graz, Graz

DAY 1

07:00 - Registration of participants
 07:15 - Surgical cases presentation
 07:30 - Surgical anatomy of the sinonasal district
 08:30 - Live surgery & debate
 12:30 - Imaging: Radiological anatomy of the paranasal sinuses
 13:00 - LUNCH
 14:00 - Video-guided step-by-step dissection
 - Identification of main surgical landmarks
 - Sphenopalatine artery identification
 - Anterior sinus compartment: uncinectomy, middle antrostomy, anterior ethmoidectomy, Draf type I
 19:00 - Closing remarks

DAY 2

07:15 - Surgical cases presentation
 07:30 - Treatment of sinonasal tumors
 08:30 - Live surgery & debate
 12:30 - Imaging: differential diagnosis of sinonasal tumors
 13:00 - LUNCH
 14:00 - Video-guided step-by-step dissection
 - Posterior sinus compartment: posterior ethmoidectomy, sphenoidotomy
 - DCR
 - Draf type II, III
 19:00 - Closing remarks

DAY 3

07:15 - Surgical cases presentation
 08:15 - Management of sinonasal complications
 08:30 - Live surgery & debate
 12:30 - Imaging: CSF-Leaks diagnostics
 13:00 - LUNCH
 14:00 - Video-guided step-by-step dissection
 - Medial maxillectomy
 - Access to the pterygopalatine fossa
 - Optic nerve decompression
 - Orbital decompression
 19:00 - Take home message & closing remarks

UNIVERSITÀ DEGLI STUDI
DELL'INSUBRIA

The basic three-days lasting workshop is grounded on sessions of live surgery, lectures and practical cadaveric dissection. After the presentation of the daily clinical cases, participants will attend live surgery projections and will debate the surgical procedures directly with the surgeons. Lectures will relate to sinonasal surgical anatomy (macroscopic, endoscopic and radiologic), and specific surgical techniques. Afternoon sessions of step-by-step tutor-guided anatomical dissection will complete the programme. This course is addressed to ENT specialists or residents who desire to deepen their knowledge on treatment of sinonasal inflammatory pathology, benign tumors and management of possible complications.

Participants that attend the three-day course and pass a final examination, will receive the Post Graduate University Diploma in *Endoscopic Nose & Paranasal Sinus Surgery*, of the University of Insubria in Varese.

Instructional Material

The instructional material in digital format will be delivered at registration, during the first session
