SCIENTIFIC PROGRAMME

SPECIAL GUEST:

CHRISTOS GEORGALAS

Athens, Greece

07:00 - Registration of participants 07:15 - Surgical cases presentation DAY 1

DAY 3

- 07:30 Endoscopic surgical anatomy of the skull base
- 08:30 Live surgery & debate
- 12:30 Imaging: Radiological anatomy and differential diagnosis of different skull-base lesions
- 13:00 LUNCH
- 14:00 Video-guided step-by-step dissection
 - Rescue flap and paraseptal sphenoidotomy
 - Hadad nasoseptal flap
 - Transplanul, transtuberculum, transellar approaches - Draf type III
- 19:00 Closing Remarks
- 07:00 Surgical cases presentation 07:15 - Multiportal approaches to the skull base 08:30 - Live surgery & debate 12:30 - Sinonasal & skull-base malignant tumors 13.00 - LUNCH 14:00 - Video-guided step-by-step dissection - Transcribriform approach Endocamic partial manufacturies
 - Endoscopic partial maxillectomies
 - Transpterygoidal approach to the cavernous sinus
- 19:00 Closing remarks
- 07:00 Surgical cases presentation
- 07:15 Management of skull base complications
- 08:30 Live surgery & debate
- 12:30 Skull base reconstruction techniques
- 13:00 LUNCH
- 14:00 Video-guided step-by-step dissection
 - Transclival approach to the posterior cranial fossa
 - Transantral approach to the infratemporal fossa
 - Transorbital approaches to the skull base
- 18:00 Final test
- 19:00 Take-home message and closing remarks

The advanced three-days lasting workshop is grounded on sessions of live surgery, lectures and anatomical dissection. After the presentation of the daily clinical cases. participants will attend live surgery projection and will debate the surgical procedures directly with the surgeons. Lectures will relate on skull base surgical anatomy (macroscopic, endoscopic and radiologic) and specific surgical techniques. Afternoon sessions of step-by-step tutor-giuded anatomical dissection will complete the course. This course is addressed to physisians dealing with skull base pathology (ENT, neurosurgeons, maxillofacial surgeons) who desire to deepen their knowledge of the endoscopic skull base techniques. Teaching material in digital format will be given to the partecipants at the beggining of the course in order to study individually the topics of the course and be able to face the final exam. Partecipants that attend the three-day course and pass a final examination, will receive the Post Graduate University Certificate in Endoscopic Skull Base Surgery, of the University of Insubria in Varese.

Instructional Material

The instructional material in digital format will be delivered at registration, during the first session
